WHOLESALE
LICENCE ISSUED

THE GROUP'S PETROLEUM ARM

TBPN Resources is the petroleum products company within the Tlou Group. It holds a wholesale licence issued by the Controller of Petroleum Products at the Department of Mineral Resources and Energy, permitting it to trade in seven categories of petroleum product — from road and industrial fuels through to aviation fuels and biofuels.

The company is registered in the Republic of South Africa as TBPN Resources Pty Ltd, registration number 2017/076156/07, with its licensed address in Menlopark, Pretoria.

Buying from a licensed wholesaler is how a fleet, a farm, a mine or an airfield knows its supply chain is lawful and traceable.

PETROLEUM PRODUCTS
NAMED ON THE LICENCE

2021

WHOLESALE LICENCE
ISSUED BY THE DMRE

WHY IT MATTERS

A WHOLESALE LICENCE IS NOT A FORMALITY.

It is issued per company under the Petroleum Products Act, it names the products the holder may deal in, and it is the legal basis on which fuel is bought and sold in bulk in South Africa.

LICENSED UNDER THE PETROLEUM PRODUCTS ACT, 1977

SEVEN PRODUCTS. ONE LICENCE.

SEVEN LICENSED PETROLEUM PRODUCTS

Each product below is named on the wholesale licence certificate. The list cannot be added to without a reissued licence.

01

DIESEL

Freight, agriculture, mining and construction plant, and standby generation.

02

PETROL

Spark-ignition fuel for light commercial and passenger fleets and small plant.

03

PARAFFIN

Illuminating paraffin for domestic lighting, cooking and heating, and commercial use.

04

LP GAS

Liquefied petroleum gas for household cylinders through to industrial installations.

05

JET FUEL

Kerosene-type turbine fuel for commercial, charter, cargo and rotary-wing operators.

06

AVIATION GASOLINE

High-octane fuel for piston-engine aircraft, flight training and agricultural flying.

07

BIOFUELS

Renewable liquid fuels for clients lowering the carbon intensity of their operations.

GROUPED AS

Road & transport fuels · Aviation fuels · Gas, illuminating & renewable. The three sections that follow set out each group in turn.

ROAD & TRANSPORT FUELS

01

DIESEL

The workhorse fuel for freight, agriculture, mining, construction plant and standby generation.

- Road freight and passenger fleets
- Mining and construction plant
- Agricultural equipment and irrigation
- Standby and prime-power generators

02

PETROL

Spark-ignition fuel for light commercial and passenger vehicles, and for small petrol-driven plant.

- Light commercial and passenger fleets
- Small plant, pumps and generators
- Retail forecourt supply

**BULK SUPPLY,
LAWFULLY SOURCED**

LICENSED WHOLESALE SUPPLY
TRACEABLE, COMPLIANT CHAIN
LICENCE COPY ON REQUEST

AVIATION FUELS

Both aviation grades are named on the licence — turbine fuel for jets and turboprops, and leaded aviation gasoline for piston aircraft.

05

JET FUEL

Kerosene-type turbine fuel for commercial, charter, cargo and rotary-wing operators.

- Commercial and charter fixed-wing
- Helicopter and rotary-wing
- Cargo and freight aviation

06

AVIATION GASOLINE

High-octane fuel for piston-engine aircraft — general aviation, flight training and agricultural flying.

- General aviation and private aircraft
- Flight training schools
- Crop-spraying and survey aircraft

GAS, ILLUMINATING & RENEWABLE

Household and commercial energy, and the renewable category that sits alongside the fossil fuels on the same licence.

THREE PRODUCTS

03 · 04
07

04

LIQUEFIED PETROLEUM GAS

Cooking, heating and process work — household cylinders to industrial installations.

- Household cooking and heating
- Hospitality kitchens
- Industrial and forklift gas

03

PARAFFIN

Illuminating paraffin for domestic lighting, cooking and heating, and as a commercial solvent and fuel.

- Domestic lighting and heating
- Commercial applications
- Wholesale supply to resellers

07

BIOFUELS

Renewable liquid fuels — the licensed category for clients lowering carbon intensity across fleets and plant.

- Renewable fuel supply
- Lower-carbon alternatives
- Sustainability reporting

WHERE THESE FUELS GO

The seven licensed products between them serve most of the sectors that move, dig, grow and fly.

ONE LICENCE COVERS ALL FOUR

DIESEL • PETROL • PARAFFIN • LP GAS • JET FUEL • AVGAS • BIOFUELS

FROM LICENCE TO DELIVERY

01 ENQUIRY & PRODUCT MATCH

Volume, product grade, delivery point and frequency established against what the licence permits.

02 COMPLIANCE VERIFICATION

Licence and company documents provided up front so the buyer's own compliance file is complete before any supply begins.

03 SUPPLY AGREEMENT

Terms, pricing basis and delivery schedule agreed in writing before the first load.

04 DELIVERY & DOCUMENTATION

Product delivered against documentation that keeps the chain of custody traceable end to end.

TRACEABLE

Every step is documented, so the buyer can evidence a lawful source for every litre received.

STEPS FROM
ENQUIRY TO
DELIVERY

LICENCE

W/2021/0549

HANDLED TO THE LETTER

Petroleum products are governed end to end — by the Petroleum Products Act for who may trade in them, and by dangerous-goods, occupational health and environmental law for how they are stored, moved and handled.

TBPN Resources trades only in the products named on its wholesale licence, and provides its licence documentation to buyers on request.

ON REQUEST

- Wholesale licence certificate
- Company registration documents
- Product specification sheets
- Delivery documentation

SKILLS THAT STAY IN THE COUNTRY

TBPN Resources sits inside a 100% black-owned South African investment group that has built its companies around local skills — from ICT and engineering through to accredited skills development at Tlou Foundation College.

Fuel supply is a licensed, document-heavy trade. The group's shared finance, compliance and administration capability sits behind it.
